

CITIZEN

Mobilise your business Go mPOS with Citizen

The market for mobile point of sale (mPOS) devices is growing fast. New technologies and systems are reducing costs, creating new options and enhancing the customer experience. Successful implementation depends on integrating different interface and operating systems within your existing sales environments. To help, Citizen offers a range of printing solutions specifically to meet your mobile printing requirements, including:

- Mobile but also stationary printers
- iOS, Android and Windows connectivity
- SDKs and APIs
- Printer upgrades
- Easy set-up, simple to use solutions.

MOBILE POS PRINTING

Solution

Mobile device and mobile printer?
Stationary printer and mobile device?
Or even a combination of both?
You choose the sales setting and we provide what's required to print receipts.

Integration

Choose your type of communication and operating system. Our SDKs for iOS, Android and Windows are available for free.

Upgrade

Already using Citizen POS printers? Good news – your stationary printers can be integrated into mobile POS systems. Talk to us today and find out how your current Citizen printing systems can be future-proofed.
